ADVANTAGES of ABCO Aluminum Boats

- Heavy duty, rugged design that is typical of ABCO's reputation for equipment supplied to the marine industry.
- Fabricated in accordance with Canadian Standards Association (CSA) Quality Assurance Code Z299.3 and .4.
- Certified welding to Canadian Welding Bureau CSA W47.2 for aluminum welding.
- No rusting, rotting, delamination, gelcoat chipping, water soaking, etc.
- Painting required only for cosmetics or anti-fouling when necessary.
- High strength to weight ratio and particularly suitable for higher speed applications.
- Minimal upkeep and maintenance costs.
- Very durable and particularly well suited for commercial and regulatory patrol applications.
- Deck arrangements, topsides can be customized.
